Model _____ Serial No. _____

SERIES 6

For more information on how to use e-Manual

Figures and illustrations in this User Manual are provided for reference only and may differ from actual product appearance. Product design and specifications may be changed without notice.

Still image warning

Avoid displaying still images (like jpeg picture files) or still image element (like TV programme logo, panorama or 4:3 image format, stock or news bar at screen bottom etc.) on the screen. Constant displaying of still picture can cause ghosting of LED screen, which will affect image quality. To reduce risk of this effect, please follow below recommendations:

- Avoid displaying the same TV channel for long periods.
- Always try do display any image on full screen, use TV set picture format menu for best possible match.
- Reduce brightness and contrast values to minimum required to achieve desired picture quality, exceeded values may speed up the burnout process.
- Frequently use all TV features designed to reduce image retention and screen burnout, refer to e-Manual for details.
Securing the Installation Space

Keep the required distances between the product and other objects (e.g. walls) to ensure proper ventilation.
Failing to do so may result in fire or a problem with the product due to an increase in the internal temperature of the product.

✎ When using a stand or wall-mount, use parts provided by Samsung Electronics only.
  - If you use parts provided by another manufacturer, it may result in a problem with the product or an injury due to the product falling.

✎ The appearance may differ depending on the product.
  - Be careful when you contact the TV because some parts can be somewhat hot.

Accessories

✎ Please make sure the following items are included with your TV. If any items are missing, contact your dealer.

✎ The items' colours and shapes may vary depending on the models.

✎ Check that there is no accessory hidden behind packing materials when you open the box.

⚠ CAUTION: INSERT SECURELY LEST SHOULD BE DETACHED IN SET

- Remote Control & Batteries (AAA x 2)
- Owner's Instructions
- Power Cord

- Warranty Card (Not available in some locations) / Safety Guide
- Cleaning Cloth
| Holder Ring (4EA) | Holder-Wire stand | AV/Component Adapter | AV Adapter |

Assembling the Holder-Wire stand

Viewing the Control Panel

✎ The product colour and shape may vary depending on the model.

✎ There are control buttons in rear of TV. When you touch the button, control icons appears.

✎ Any object (an electric wire, etc.) near the control panel may cause unintended activation of the OSD.

TV Rear

| Remote control sensor	Aim the remote control towards this spot on the TV.
Power Indicator	Blinks and turns off when the power is on and lights up in standby mode.
⧉ (Source)	Toggles between all the available input sources. In the on-screen menu, use this button as you would use the ENTER⏎ button on the remote control.
MENU	Displays an on-screen menu, the OSD (on screen display) of your TV's features.
± (Volume)	Adjusts the volume. In the OSD, use the + and − buttons as you would use the ◄ and ► buttons on the remote control.
◊ (Channel)	Changes the channels. In the OSD, use the ∧ and ∨ buttons as you would use the ▼ and ▲ buttons on the remote control.
⏻ (Power)	Turns the TV on or off.

Standby mode

Do not leave your TV in standby mode for long periods of time (when you are away on a holiday, for example). A small amount of electric power is still consumed even when the power button is turned off. It is best to unplug the power cord.

✎ This is a special remote control for the visually impaired persons and has Braille points on the Power, Channel and Volume buttons.

Turns the TV on and off.

Displays and selects the available video sources.
Have direct access to channels.

Alternately select Teletext ON, Double, Mix or OFF.

Adjusts the volume.

Opens the OSD.

Link to various application services.

Quickly select frequently used functions.

Selects the on-screen menu items and changes the values seen on the menu.

Returns to the previous menu.

These buttons are for the **Channel** and **SMART HUB** menu, etc.

Use these buttons in **SMART HUB** and **Anynet+ (HDMI-CEC)** modes.

Turns the remote control light on or off. When on, the buttons become illuminated for a moment when pressed. (Using the remote control with this button set to On will reduce the battery usage time.)

Returns to the previous channel.

Cuts off the sound temporarily.

Changes channels.

Displays channel lists on the screen.

Displays the EPG (Electronic Programme Guide).

Displays information on the TV screen.

▲/▼/◀/▶ : Move the cursor on-screen menu item.
ENTER ↵: Selects the menu and changes the corresponding item value.

Exits the menu.

SOCIAL TV: Connect to **Social TV** application.
SEARCH: Support to recommendation search word and search function.
: Turns the **3D** image on or off.
E-MANUAL: Displays the **e-Manual**.
P.SIZE: Selects the **Picture Size**.
AD/SUBT.: Turns the audio description on and off (not available in some locations). / Displays digital subtitles.

Installing batteries (Battery size: AAA)

Changing the Input Source

Source

Use to select TV or an external input sources such as a DVD / Blu-ray player / cable box / STB satellite receiver.

SOURCE ⬚

■ **TV / PC / AV1 / AV2 / Component / HDMI1/DVI / HDMI2 / HDMI3 / HDMI4 / USB / AllShare**

✎ In the **Source**, connected inputs will be highlighted.

✎ **PC** always stay activated.

Edit Name

In the **Source**, press the **TOOLS** button, and then you can set an external input sources name you want.

■ **VCR / DVD / Cable STB / Satellite STB / PVR STB / AV Receiver / Game / Camcorder / PC / DVI PC / DVI Devices / TV / IPTV / Blu-ray / HD DVD / DMA**: Name the device connected to the input jacks to make your input source selection easier.

✎ When connecting a PC to the **HDMI IN 1 (DVI)** port with HDMI cable, you should set the TV to **PC** mode under **Edit Name**.

✎ When connecting a PC to the **HDMI IN 1 (DVI)** port with HDMI to DVI cable, you should set the TV to **DVI PC** mode under **Edit Name**.

✎ When connecting an AV devices to the **HDMI IN 1 (DVI)** port with HDMI to DVI cable, you should set the TV to **DVI Devices** mode under **Edit Name**.

Edit Favourites

In the **Source**, press the **TOOLS** button to select **Edit Favourites**. You can set an external input source to Favourites.
Information

You can see detailed information about the selected external device.

Refresh

In the **Source**, If the external devices is not displayed, press the **TOOLS** button to select **Refresh**. Searching for connected devices.

✎ For best cable connection to this product, be sure to use cables with a maximum thickness as below:

• Maximum thickness - 0.55 inches (14mm)

Connecting to an Antenna

When the TV is initially powered on, basic settings proceed automatically.

VHF/UHF Antenna   Cable

ANT IN

or

Plug & Play (Initial Setup)

When the TV is initially powered on, a sequence of on-screen prompts will assist in configuring basic settings. Press the **POWER**⏻ button. **Plug & Play** is available only when the **Source** is set to TV.

✎ Before turning on the TV, make sure the antenna cable is connected (p. 6).

POWER

1	Selecting a language	Press the ▲ or ▼ button, then press the **ENTER**⏎ button. Select the desired OSD (On Screen Display) language. (Not available in some locations)
2	Wired/Wireless Network Connection	Set up your network connection. Press the **ENTER**⏎ button to start. If you want to setting to it later, select **Skip**. For more information, refer to "Wired/Wireless Network Connection" in the e-Manual.
3	Software upgrade	When network connection settings are complete, Software Upgrade is available. Select **Next** to upgrade TV software. Your TV will automatically upgrade, if your TV need a software upgrade. If you want to upgrade later, select the **Skip**. For more information, refer to "Software Upgrade" (Preference Features → Support Menu) in the e-Manual. ✎ This may take some time, depending on network status.
4	Selecting **Store Demo** or **Home Use**	Press the ◄ or ► button, then press the **ENTER**⏎ button. Select the **Home Use** mode. **Store Demo** mode is for retail environments. To return the unit's settings from **Store Demo** to **Home Use** (standard): Press the volume button on the TV. When you see the volume OSD, press and hold **MENU** for 5 sec. **Store Demo** is only for shop display. If you select it, several functions are not able to use. Please select **Home Use** when you watch at home.
5	Selecting an country	Press the ▲ or ▼ button, then press the **ENTER**⏎ button. Select the appropriate country.
6	Selecting an area	Press the ▲ or ▼ button, then press the **ENTER**⏎ button. Select the appropriate area. (Not available in some locations)
7	Setting the **Clock Mode**	Set the **Clock Mode** automatically or manually. **Auto**: Allows you to select a time zone. ✎ Press the ▲ or ▼ button to highlight the time zone for your local area. Press the **ENTER**⏎ button. (Australia only). **Manual**: Allows you to manually set the current date and time.
8	Selecting a channel	Select the channel source to memorise among **Digital & Analogue** / **Digital** / **Analogue**. When done, select **Next**. Scans for a channel automatically and stores in the TV.
9	**Enjoy your TV.**	If you want to watch a broadcast programme, select **Close**. If you want to enjoy the **Smart Hub**, select the Smart Hub. The **Smart Hub** will start. For more detailed information, refer to "**Smart Hub**" in the e-Manual.

If You Want to Reset This Feature...

Select **System** - **Plug & Play** (Initial Setup). Enter your 4 digit PIN number. The default PIN number is "0-0-0-0." If you want to change the PIN number, use the **Change PIN** function.

You should do **Plug & Play** (**MENU** → **System**) again at home although you did in shop.

✎ If you forget the PIN code, press the remote control buttons in the following sequence in Standby mode, which resets the PIN to "0-0-0-0": **MUTE** → 8 → 2 → 4 → **POWER** (on).

Available devices: DVD, Blu-ray player, HD cable box, HD STB (Set-Top-Box) satellite receiver, VCR

HDMI connection

3

2 (ARC)

1 (DVI)

AV IN 1

COMPONENT IN
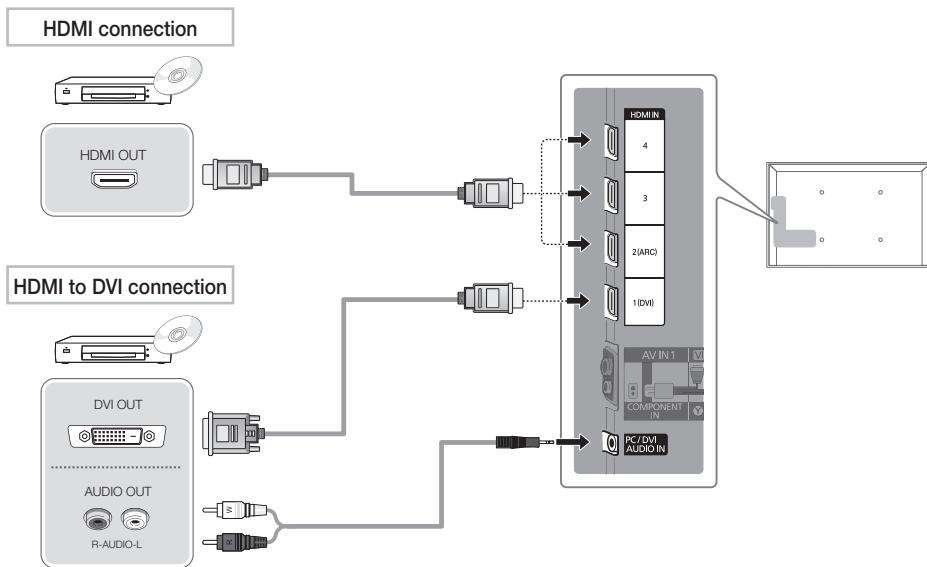

PC / DVI AUDIO IN

Using an HDMI or an HDMI to DVI cable (up to 1080p)

✎ **HDMI IN 1 (DVI), 2 (ARC), 3, 4 / PC/DVI AUDIO IN**

- For better picture and audio quality, connect to a digital device using an HDMI cable.
- An HDMI cable supports digital video and audio signals, and does not require an audio cable.
  – To connect the TV to a digital device that does not support HDMI output, use an HDMI/DVI and audio cables.
- The picture may not display normally (if at all) or the audio may not work if an external device that uses an older version of HDMI mode is connected to the TV. If such a problem occurs, ask the manufacturer of the external device about the HDMI version and, if out of date, request an upgrade.
- Be sure to use an HDMI cable with a thickness of 14 mm or less.
- Be sure to purchase a certified HDMI cable. Otherwise, the picture may not display or a connection error may occur.
- A basic high-speed HDMI cable or one with ethernet is recommended. This product does not support the ethernet function via HDMI.
- This product supports the 3D and ARC (Audio Return Channel) functions via an HDMI cable. Note that the ARC function is supported by the **HDMI IN 2 (ARC)** port only.
- The ARC function allows digital audio to output via the **HDMI IN 2 (ARC)** port. It can be enabled only when the TV is connected with an audio receiver that supports the ARC function.
Using a Component (up to 1080p) or an Audio/Video (480i only)

✎ When connecting to **AV IN**, the colour of the **AV IN 1 [VIDEO]** jack (green) will not match the video cable (yellow).

✎ To obtain the best picture quality, the Component connection is recommended over the A/V connection.

Available devices: digital audio system, amplifier, DVD home theatre

DVD home theater connection

OPTICAL

Headphones connection

Using an Optical (Digital) or a Headphone Connection

✎ **DIGITAL AUDIO OUT (OPTICAL)**

- When a digital audio system is connected to the **DIGITAL AUDIO OUT (OPTICAL)** jack, decrease the volume of both the TV and the system.
- 5.1 CH (channel) audio is available when the TV is connected to an external device supporting 5.1 CH.
- When the receiver (home theatre) is set to on, you can hear sound output from the TV's optical jack. When the TV is receiving a DTV signal, the TV will send 5.1 CH sound to the home theatre receiver. When the source is a digital component such as a DVD / Blu-ray player / cable box / STB (Set-Top-Box) satellite receiver and is connected to the TV via HDMI, only 2 CH audio will be heard from the home theatre receiver. If you want to hear 5.1 CH audio, connect the digital audio out jack from your DVD / Blu-ray player / cable box / STB satellite receiver directly to an amplifier or home theatre.

✎ **Headphones** ⌓: You can connect your headphones to the headphones output on your set. While the headphones are connected, the sound from the built-in speakers will be disabled.

- Sound function may be restricted when connecting headphones to the TV.
- Headphone volume and TV volume are adjusted separately.

Using an HDMI cable or an HDMI to DVI cable or a D-sub cable

✎ Connecting through the HDMI cable may not be supported depending on the PC.

PC connection

	1680 x 1050	65.290	59.954	146.250	-/+
VESA DMT / DTV CEA	1920 x 1080p	67.500	60.000	148.500	+/+

✎ NOTE

- For HDMI/DVI cable connection, you must use the **HDMI IN 1 (DVI)** jack.
- The interlace mode is not supported.
- The set might operate abnormally if a non-standard video format is selected.
- Separate and Composite modes are supported. SOG(Sync On Green) is not supported.

Network Connection

You can set up your TV so that it can access the Internet through your local area network (LAN) using a wired or wireless connection.

Network Connection - Wireless

You can connect your TV to your LAN through a standard wireless router or modem. To connect wirelessly, you must first attach a "Samsung Wireless LAN adapter" (WIS09ABGN, WIS09ABGN2, WIS10ABGN - sold separately) to either the **USB 1 (HDD)**, **USB 2** or **USB 3** on the back of your TV. See the illustration below.

Samsung's Wireless LAN adapter is sold separately and is offered by select retailers, Ecommerce sites and Samsungparts.com. Samsung's Wireless LAN adapter supports the IEEE 802.11a/b/g and n communication protocols. Samsung recommends using IEEE 802.11n. When you play the video over a IEEE 802.11b/g connection, the video may not play smoothly.

Most wireless network systems incorporate a security system that requires devices that access the network through an access point or wireless router (typically a wireless IP Sharer) to transmit an encrypted security code called an access key.

If Pure High-throughput (Greenfield) 802.11n mode is selected and the Encryption type is set to WEP, TKIP or TKIP AES (WPS2Mixed) for your wireless router, Samsung TVs will not support a connection in compliance with new Wi-Fi certification specifications.

Network Connection - Wired

There are two main ways to connect your TV to your network using cable, depending on your network setup. They are illustrated below:
✎ It is not supported when the network speed is under 10 Mbps.

4. You can view the corresponding e-Manual instruction screen.

   ✎ To close the **Index** screen, press the **RETURN** button.

Troubleshooting

If you have any questions about the TV, first refer to this list. If none of these troubleshooting tips apply, please visit "www. samsung.com," then click on Support, or contact the call centre listed on the back-cover of this manual.

Issues	Solutions and Explanations
The TV won't turn on.	• Make sure the AC power cord is securely plugged in to the wall outlet and the TV. • Make sure the wall outlet is working. • Try pressing the **POWER** button on the TV to make sure the problem is not the remote. If the TV turns on, refer to "Remote control does not work" below.
There is no picture/video.	• Check cable connections (remove and reconnect all cables connected to the TV and external devices). • Set your external device's (Cable/Sat Box, DVD, Blu-ray etc) video outputs to match the connections to the TV input. For example, if an external device's output is HDMI, it should be connected to an HDMI input on the TV. • Make sure your connected devices are powered on. • Be sure to select the TV's correct source by pressing the **SOURCE** button on the remote control. • Reboot the connected device by reconnecting the device's power cable.
The remote control does not work.	• Replace the remote control batteries with the poles (+/–) in the right direction. • Clean the sensor's transmission window on the remote. • Try pointing the remote directly at the TV from 5~6 feet away.
The cable/set top box remote control doesn't turn the TV on or off, or adjust the volume.	• Programme the Cable/Set remote control to operate the TV. Refer to the Cable/Set user manual for the SAMSUNG TV code.

✎ This TFT LED panel uses a panel consisting of sub pixels which require sophisticated technology to produce. However, there may be a few bright or dark pixels on the screen. These pixels will have no impact on the performance of the product.

✎ You can keep your TV as optimum condition to upgrade the latest firmware on web site (samsung.com → Support → Downloads) by USB.

AllShare™
AllShare™ connects your TV and compatible Samsung mobile phones/devices through a network.

Anynet+(HDMI-CEC)
Allows you to control all connected Samsung devices that support anynet+ with your Samsung TV's remote.
Installing the Wall Mount Kit

The wall mount kit (sold separately) allows you to mount the TV on the wall.

For detailed information on installing the wall mount, see the instructions provided with the wall mount. Contact a technician for assistance when installing the wall mount bracket. Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you elect to install the TV on your own.

Preparing before installing Wall-Mount

To install a wall-mount from another manufacturer, use the Holder-Ring.

**Wall Mount Kit Specifications (VESA)**

✎ The wall mount kit is not supplied, but sold separately.

Install your wall mount on a solid wall perpendicular to the floor. When attaching to other building materials, please contact your nearest dealer. If installed on a ceiling or slanted wall, it may fall and result in severe personal injury.

✎ **NOTE**

- Standard dimensions for wall mount kits are shown in the table below.
- When purchasing our wall mount kit, a detailed installation manual and all parts necessary for assembly are provided.
- Do not use screws that do not comply with the VESA standard screw specifications.
- Do not use screws that are longer than the standard dimension or do not comply with the VESA standard screw specifications. Screws that are too long may cause damage to the inside of the TV set.
- For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on the wall mount specifications.
- Do not fasten the screws too strongly; this may damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
- Samsung is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.
- Our 55” model do not comply with VESA Specifications. Therefore, you should use our dedicated wall mount kit for this model.
- Do not mount the TV at more than a 15 degree tilt.
- Always use two people to mount the TV to a wall.

Product Family	inches	VESA Spec. (A * B)	Standard Screw	Quantity
LED-TV	19~22	75 X 75	M4	4
	23~27	200 X 100		
	32~40	200 X 200	M8	
	46~55	400 X 400		
	60~65	600 X 400		
⚠ Do not install your Wall Mount Kit while your TV is turned on. It may result in personal injury due to electric shock.

Securing the TV to the wall

⚠ **Caution**: Pulling, pushing, or climbing onto the TV may cause the TV to fall. In particular, ensure that your children do not hang over or destabilize the TV; doing so may cause the TV to tip over, resulting in serious injuries or death. Follow all safety precautions provided in the included Safety Flyer. For added stability and safety, install the anti-fall device as follows.

To Avoid the TV from Falling

1. Put the screws into the clamps and firmly fasten them onto the wall. Confirm that the screws have been firmly installed onto the wall.

   ✎ You may need additional material such as an anchor depending on the type of wall.

   ✎ Since the necessary clamps, screws, and string are not supplied, please purchase these additionally.

2. Remove the screws from the back centre of the TV, put the screws into the clamps, and then fasten the screws onto the TV again.

   ✎ Screws may not be supplied with the product. In this case, please purchase the screws of the following specifications.

   ✎ Screw Specifications

      • For a 19 ~ 27 inch: M4

      • For a 32 ~ 65 inch: M8

3. Connect the clamps fixed onto the TV and the clamps fixed onto the wall with a strong cable and then tie the string tightly.

   ✎ **NOTE**

      • Install the TV near to the wall so that it does not fall backwards.

      • It is safe to connect the string so that the clamps fixed on the wall are equal to or lower than the clamps fixed on the TV.

      • Untie the string before moving the TV.

4. Verify all connections are properly secured. Periodically check connections for any sign of fatigue for failure. If you have any doubt about the security of your connections, contact a professional installer.
Storage and Maintenance

✎ If you attached some stickers on the TV screen, it remains some debris after removing the sticker. Please clean it to watch TV.
Do not spray water or a cleaning agent directly onto the product. Any liquid that goes into the product may cause a failure, fire, or electric shock.	Clean the product with a soft cloth dapped in a small amount of water.
